Inumbra

© Design by Dirk Wynants for Extremis, 2002

The classic parasol has become so familiar that hardly anyone would stop to consider how it could be redesigned. Inumbra is the result of improving every single aspect a parasol has.

All our designs are original creations and protected by intellectual property rights.

Extremis

This all-black Inumbra shade is a statement piece with some very nice extra's. While the black canvas doesn't have any dangling parts hanging above your head, it also doesn't easily show 'natural droppings'. The black pole fits into the tabletop, leaving all the space underneath for your legs.

Freestanding Inumbra on a concrete base at the infinity pool of this Mallorca hotel in Spain.
