The Bravura range is a brilliant contemporary take on Woodline's classic market parasol, combining the beauty and strength of mixed medium components with a unique modern look. The sleek anodized aluminum frame is perfectly complimented by the warm eucalyptus hubs, bringing together the best of two worlds in a feat of engineered elegance.

The double pulley with genuine leather rope clip features stainless steel components enabling long-lasting, smooth operation of the canopy, while the smart canopy attachment system allows for easy fabric removal for washing or seasonal updates.
