This side post umbrella makes for more free space. It offers shade without the usual center pole umbrella base taking up the space. This makes the Pavone especially suited for large areas, but also for private use. With an easy-to-operate crank mechanism, the umbrella and the shade is held by a high-quality aluminum structure that is rotatable, reclining and retractable. Available in black or grey finish options.

The Pavone offers the flexibility only a side post shade can offer, with the convenience and flexibility of a foldaway function. The small folded footprint saves you space, while the 360° Rotate and Recline function makes the Pavone one of the most versatile shade solutions.

Pavone

the perfect combination of form, function and flexibility

Wind Rating: Light Wind

Application: Patios, restaurants, hotels, poolside loungers... areas that require a shade solution with the convenience of a cantilever system and the flexibility of a side post foldaway parasol.

Open, recline and lock

Convenient foot pedal with 360° rotate and lock mechanism

The square model Pavone which is ideal for small seated groups

Smart canopy attachment system for easy removal for cleaning or changes

360° rotate and lock

Extendable center pole bracket for attaching a light

Rectangular model creates an ample seating space below
