2.5 inch pole Ø

Code: SKY43RESS

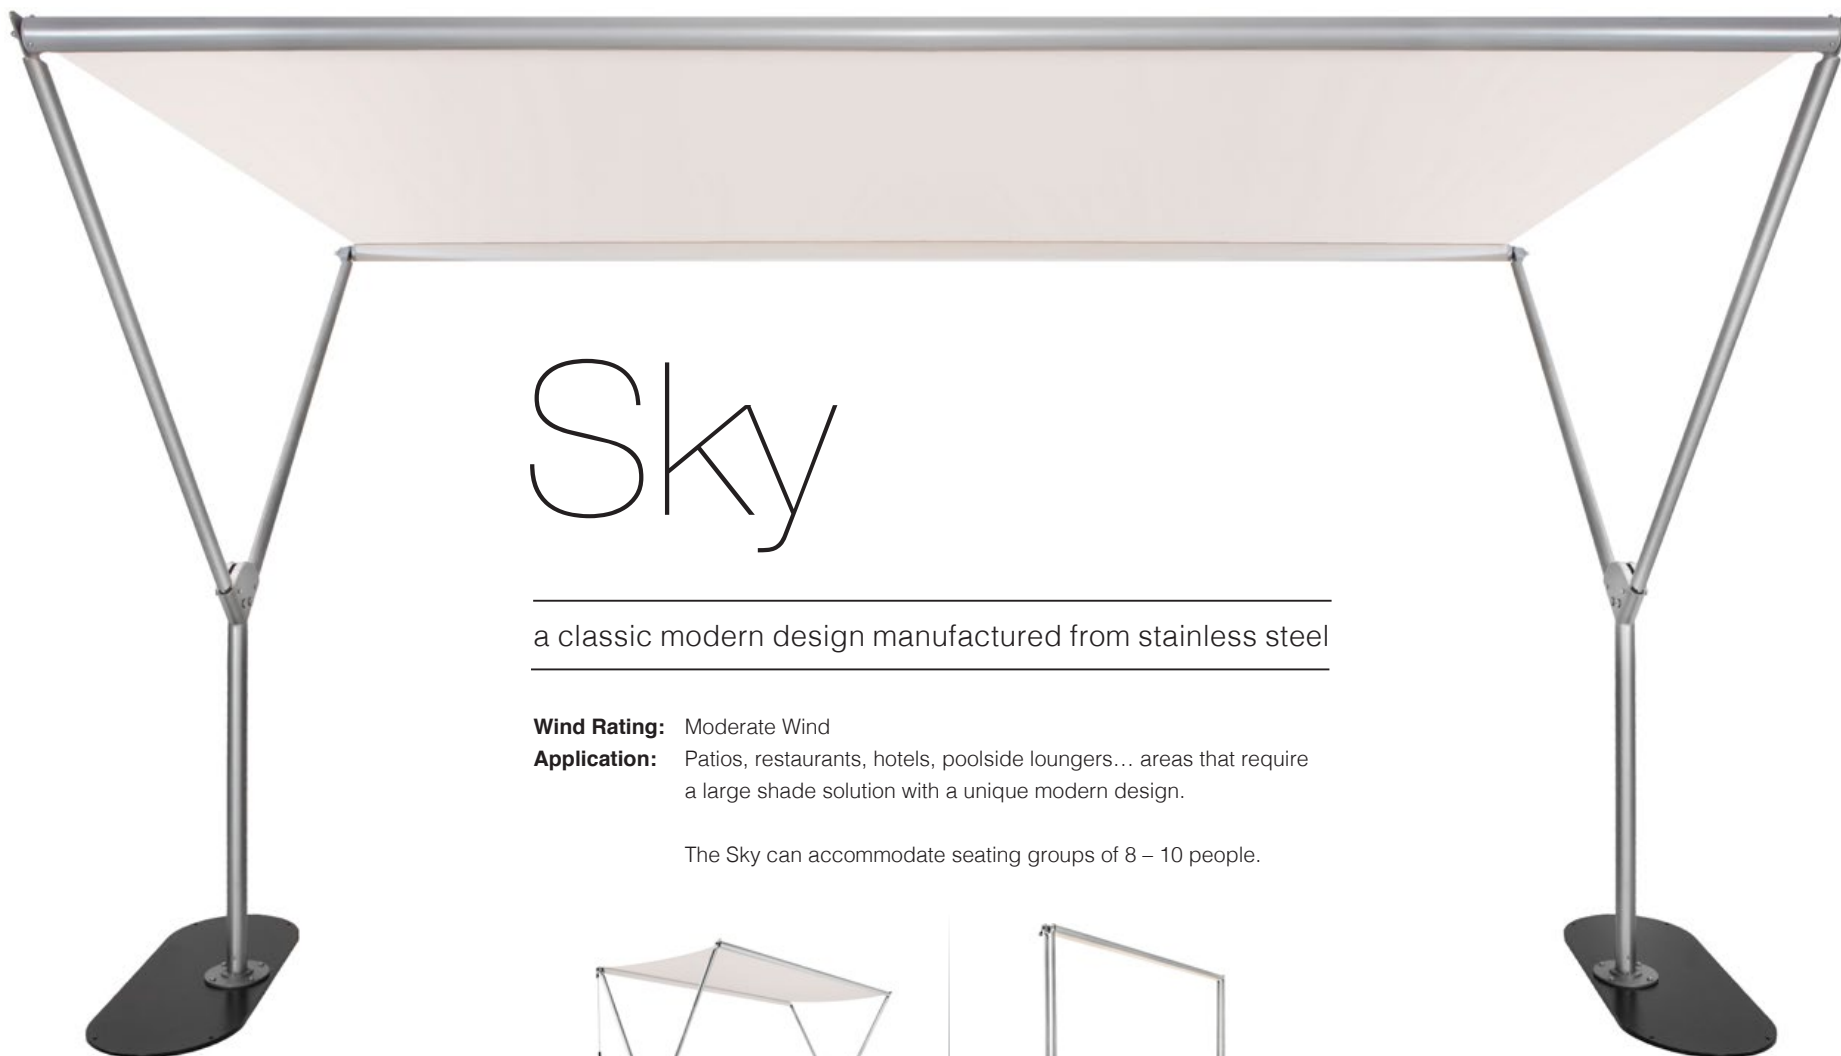

The Sky is a minimalistic free-floating shade solution that blends a mix of modern high-tech components with classic simplicity of design. The large horizontal canopy is ideal for substantial seating areas requiring unobstructed open space, while two or more Sky structures may be grouped side-by-side for even bigger applications. With its intelligent use of assisting gears, the Sky is a breeze to open and close and the sturdy stainless steel TIG welded structure is rock-steady, even in strong winds.

2 Sky shades joined side-by-side

The reduction gearbox and crank handle allow for easy opening and closing of the canopy. The locking pins secure the structure in place while the pivot box has been engineered to cope with all kinds of weather conditions.

Sky

a classic modern design manufactured from stainless steel

Wind Rating: Moderate Wind

Application: Patios, restaurants, hotels, poolside loungers... areas that require a large shade solution with a unique modern design.

The Sky can accommodate seating groups of 8 – 10 people.
